

Hilton  Atlanta
HIGH SPEED INTERNET ACCESS

WIRELESS HIGH SPEED INTERNET ACCESS is available in all guest rooms, restaurants and outlets, main lobby, and the Executive Lounge area. Registered hotel guests can buy wireless high speed internet access directly through their laptops and the charges will be placed directly on their guest room accounts. Hotel guests simply enter last name and room number as verification of an accepted form of payment. Non-registered customers can establish a form of payment at the Front Desk, then receive username and password for usage in the areas listed above. Charges apply per computer per guest room per 24 hours.

WIRED SOLUTIONS FOR INTERNET ACCESS IN MEETING ROOMS AND FUNCTION SPACE is available when planning group events. The Meetings and Conventions Department can assist professional planners in planning and coordinating internet access for multiple applications and users. The convenience of accessing the internet is made possible with hardware installed in our hotel that works in conjunction with hardware installed in your computer(s). Each computer must be equipped with an Ethernet network interface and VPN software if accessing corporate networks via the internet. Prices vary according to the number of computers and the number of days in use.
