

PSAV[™]
PRESENTATION SERVICES

MAKE THEM **SIT UP AND TAKE NOTICE** ►

YOU ONLY HAVE **ONE CHANCE**

TO MAKE A PRESENTATION GREAT.

It's hard work. So much to organize, so much at stake.

And when all is said and done, success comes down to one thing:

WILL THEY REMEMBER YOUR MESSAGE?

They judge you by more than what you say.

The impression you create depends on how it looks, sounds and feels.

Professional delivery **captures their attention** and **opens their minds**.

Having an expert support team in-house gives you the confidence to **deliver it in style**.

WHY CHOOSE PRESENTATION SERVICES?

THE RIGHT ADVICE

Our in-house audiovisual consultants can advise you on the best way to **communicate clearly** with your audience.

We know every inch of the venue. We check screen sizes, sightlines, and lighting levels, to make sure everything will **work smoothly**. You won't have last-minute dramas with room access, power supplies or rigging.

Presentation Service works as a **close-knit team** with the hotel, planning well in advance to ensure that everything is just right on the day.

THE REASSURANCE OF BACKUP

Meetings change constantly, and last-minute equipment needs are a fact of life. When your guest speaker needs an extra microphone ASAP, we'll have it on site. Problem solved. **On with the show.**

SERVICE THAT MEASURES UP

Everyone tells you they offer great service. Very easy to say, much harder to deliver. Presentation Services is the **only audiovisual company** that has engaged the renowned J.D. Power and Associates™ customer satisfaction research program to make sure we deliver.

VIDEO

Video and multi-media projection, plasma screens, replay systems, cameras and more to keep your image crisp.

AUDIO

Clean, even sound for maximum impact. Speaker systems that don't look intrusive in the corporate environment.

LIGHTING

A well-lit presenter carries a more impressive presence. An imaginatively-lit set creates drama and anticipation.

STAGING

Everything you need to create a professional environment on stage. From stage sets to computerized tele-prompter systems

COMPUTER SYSTEMS

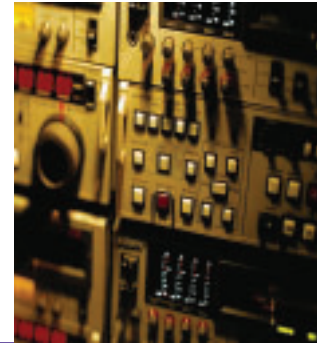

A single notebook or a network across multiple rooms to manage presenter visuals. High speed web links and on-site cyber cafes. Computer labs for training.

VIDEO AND AUDIO RECORDING

A professional record of your event that can be distributed on CD-ROM if required.

CONFERENCE EQUIPMENT

The breakout room details that keep a conference running. Whiteboards, flipcharts, podiums, video monitors and more, installed with the same care as the high-tech systems in the general session rooms.

Call us now to see how we can add powerful impact to your meetings

CONTACT 

Please call us anytime to discuss how to add professional impact to your meeting.
