

• *Welcome to SpeediShuttle* •

We are proud to provide the highest quality product and experience in the industry, bar none. Since our inception in 1999, we have grown to become the sixth largest passenger carrier in the state of Hawaii with service on all four major islands. We do not run with the crowd. We strive to rise above other transportation companies in the marketplace by continuously setting and exceeding even our own expectations of excellence.

We hold ourselves to the highest standard in every area of the shuttle business. From our customer service to our state of the art fleet of Mercedes Benz passenger shuttles, our clients travel in style and comfort second to none. We have a commitment to professionalism and we understand premium service. We believe that quality service never comes from compromise... it comes from passion. SpeediShuttle is *fueled* by passion.

Not all shuttle companies are created equal. Only SpeediShuttle customers have access to the SpeediShuttle fleet of Mercedes Benz Sprinters. Our fleet was selected specifically for brand recognition, comfort, beauty, reliability, safety, and fuel efficiency. Each shuttle has spacious interiors with six foot cabin height, zoned air conditioning, shoulder and waist seatbelts, CD players and plenty of luggage space. Out of concern for reducing our carbon footprint, SpeediShuttle utilizes bio-diesel fuel whenever we are able to.

Guests can take advantage of SpeediShuttle's exclusive reservation desk located at the Hilton Waikoloa Village. Whether booking a transfer to or from the airport, a local area business, or as a charter service for however long it is needed, the convenience provided by an on-site service desk cannot be beaten.

For those who prefer to use the internet, SpeediShuttle and the Hilton Waikoloa Village can offer the ease of use of our web reservations portal.

Airport transfer arrivals and departures, both one-way and round trip can be booked, verified or cancelled with just a few clicks.

We are accountable for every transfer since we monitor our fleet 24 hours a day for safety and location. Each vehicle is monitored in real time for its speed to ensure the highest safety rating in the industry and location to ensure that we are on time. Each shuttle is equipped with a GPS tracking system which is a dispatch management tool for improved service delivery. Our system has proven over the years to provide the safest operating and best service infrastructure in the ground transportation industry.

Our Dispatch Coordinators utilize our real time mapping system so that we know where our shuttles are located, at any given time of the day. This way we can safely and efficiently run our business for your guests.

We want our drivers to keep their hands on the steering wheel - not on the phone talking to dispatch. This concern combined with our dashboard text technology translates into just one more reason why we have the safest operating fleet in the shuttle industry.

At SpeediShuttle we can meet all your guests' needs. Does your party have plans to do a snorkel trip or a helicopter ride? We are able to provide transportation to the harbor or the heliport. Whatever your client needs...SpeediShuttle will provide the service.

No group is too large or too small! SpeediShuttle can provide first class service for your group for any occasion. Have a large group? SpeediShuttle can arrange for motor coach service through our Gray Line partner. Need a limousine for a wedding party, SpeediShuttle now has their own sedans and SUV's. In addition, we have developed a customized, on-line website portal program to handle the administrative function of airport transfer reservations and payments. A link to our website takes attendees to a secure, special section where they can reserve and pay for their transfers. We can even customize a web portal for your groups' web site as well! We will assess your event to determine exact requirements. We'll provide a detailed plan that covers the entire gamut of ground transportation services, from planning, coordination, implementation, and on-site management.

Today's business environment is making it harder to feel confident about reaching goals and achieving customer satisfaction. In this market, you want a company that has managed to remain upwardly mobile in an increasingly volatile economy. Allow us to relieve you of your day to day transportation concerns. With SpeediShuttle, you can rest assured that every guest is receiving the service they deserve.

• *Sedans, SUVs & Limousines* •

SpeediShuttle dba Arthur's Limousine is pleased to announce the addition of the finest sedan, SUV, and limousine service to complement our menu of services. We have a commitment to professionalism and delivering a premium experience. Our service is second to none.

The mainstay of our new fleet is the Lincoln Stretch Limousine. Widely respected as the standard of excellence for the industry, with a seating capacity of up to eight (8), it's large, roomy, relaxing and comfortable.

Have a special occasion? The Lincoln Town car has always been the epitome of style and luxury. We have the largest fleet of luxury sedans on Maui.

When you need a little more room when traveling, it's the best choice. The Cadillac Escalade is the perfect vehicle. With room for five (5) and luggage, your guest will travel to their destination in comfort.

From airport transfers to weddings, go ahead and spoil yourself. When the journey is as important as the destination, call SpeediShuttle for your limousine needs.
