

## "GREEN MEETINGS"

The Hilton Parsippany / Hampton Inn Parsippany are striving to be an earth friendly hotel with the help of EarthPact by Crestline Hotels and Resorts.

EarthPact by Crestline Hotels and Resorts is committed to creating and managing hotels that lead the community in environmentally responsible lodging. The EarthPact philosophy creates a sustainable culture that addresses the ecological concerns of today while maintaining a successful presence in the hotel industry.

The development of a "Green Meeting" formula will incorporate all aspects of eco-friendly styles and is underway at Hilton Parsippany / Hampton Inn Parsippany.

- Water service in the hotel will focus on tap or filtered water with reduced carbon footprint company sourced as bottled water vendor.
- Recycling bins will be placed in all meeting rooms for paper, glass, bottles, aluminum and plastic.
- Menus will be available on this website in the very near future.

Additional items and important links will be incorporated as part of this website as we move forward to becoming a "Green Hotel".
