

EVENT PLANNING & EQUIPMENT SELECTION

From the simplest presentation to complex video projection, from concert sound to stage lighting, Swank Audio Visuals offers you the finest professional meeting, convention and tradeshow services available anywhere.

PROFESSIONAL TECHNICAL ASSISTANCE & EQUIPMENT INSTALLATION

We offer an experienced staff of professional technicians trained in all aspects of projection, video, audio and lighting available for your meeting. If you have extensive or specialized audio visual requests, a professional technician is recommended (and with some equipment, it is necessary) for successful operation. Depending on the nature, extent or quantity of your requirements, an additional charge will be applied for the set-up and pre-testing of equipment, including the safety tape-down of cables, additional power cords, and the pack-up and removal of equipment at the conclusion of your event.

FLEX FOR SUCCESS

Throughout the planning process and on-site, we provide creativity, confidence and comfort by delivering "Flawless Execution" with a hospitality approach. As part of our continued effort to improve upon our service standards, we have developed a program called FLEX 7. At the conclusion of your event, you will receive a survey via email from our home office. Our goal is to obtain the highest score (7) in every area of customer satisfaction. We look forward to providing you with the best service and audio visual equipment in the industry.
